CUT FLOWERS

Judge : Mrs Gabrielle Crema

Artistic arrangements to be taken into account when being judged, but quality of the receptacle is not to be taken into account. Foliage natural to the blooms exhibited should not be removed.

Helpful Definitions:

FLOWER or BLOOM: One flower on a single stem with natural foliage, if any, no buds or laterals (as seen with roses and carnations) should be present.

STEM or STALK: Taken into account in exhibits where points are given for stems as in sweet peas, gerberas, lilies etc. Buds exhibiting colour on the stem will disqualify the exhibit. No laterals are allowed.

HEAD: Cluster of flowers forming a large flower, eg. Phlox hydrangea etc.

SPRAY: A stem with laterals and flowers attached, eg. Azaleas.

SPIKE: A straight main stem with flowers attached. No laterals are allowed, eg. Gladioli, Delphinium.

CUT: Laterals are allowed but not essential. Flowers may or may not be attached to one or more laterals, but all must be attached to one common stalk.

LATERALS: Side growths on a main stem allowable on cuts, sprays and in all decorative work. Laterals will definitely disqualify exhibits where single blooms, spikes or heads are required.
